

GLASS WALL LAMP SATURN

EL_W_8

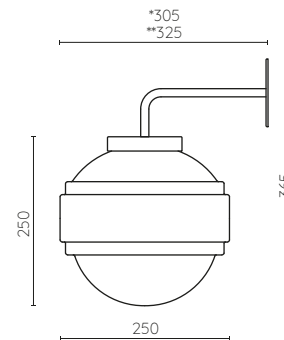

The exceptional character of Wall Lamp Saturn comes from the charm of its substantial traditionally hand-blown opal glass lampshade and the handcrafted precision of the minimalist brass arm.

The white opaque lampshade will not only provide attractive lighting in the evening, but its characteristic shape is also worth displaying in daytime. The overtones of Bauhaus are a perfect match for geometric prints and look perfect in the interiors dominated by bright clear colours. Should you aim for a stronger effect, you can place the lamp against a dark background – this will highlight its stylish geometry and bring special charm to the room without the need for any additional decorations – after all this is Bauhaus, so go for minimalism!

*** The lamp is equipped with two types of fixtures to choose from – either an elegant, minimalist flat plaque (which is needed to hide the wires in the flush-mounted electrical box inside the wall) or a solid two-part rosette bracket for a standard non-flush connection.

product category	environment	material	voltage
wall lamp	indoor	opaline glass and solid brass	230 v - 50Hz
light source	certifications	fixture 1*	fixture 2**
E27 max 25W	CE Class II IP21	flat plaque	wall rosette
